COVER PAGE

FOR FLEAS & TICKS:

A light, even coverage of the hair coat will provide effective flea control. Do not allow spray from application or damp pet to come into contact with painted or finished surfaces, including wood floors/furniture, leather/vinyl materials, or other surfaces of concern. For best results, ruffle the coat while spraying against the natural lay of the hair. Cover pet's eyes with hand. With a firm, fast stroke, spray head, ears, and chest. If you see a tick, spray it directly. With cloth, rub on face around mouth, nose, and eyes. Then spray the neck, middle and hind quarters, finishing with legs and tail last. Avoid spraying rectum and genitals. For all pets, spray until damp, not saturated. Do not allow pets to become chilled. Repeat every month for continuous home flea and tick infestation prevention.

RECOMMENDED DOSAGE: Note that the recommended dose is about 4 squeezes of the trigger sprayer per pound of body weight. Short-haired pets will need less; more spray may be needed for long-haired pets. In all cases, apply spray until the coat is damp, not saturated.

FOR MOSQUITOES: A light, even coverage of the hair coat (as applied for flea control), will also provide effective repellency of mosquitoes.

Adams™ Plus Flea & Tick Spray is most effective when used as part of a total flea and tick management program. Use other Adams™ Plus products registered for residential premise control (carpets, upholstery and pet bedding) of these pests in conjunction with this treatment. Monthly premise treatments are required for optimal control and prevention of fleas and ticks.

The successive feeding activity of fleas on pets may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of pets with Adams™ Plus Flea & Tick Spray kills fleas and may reduce the incidence of this condition.

STORAGE and DISPOSAL: Pesticide Storage: Do not store near heat or open flame. Store away from children and animals. **Disposal: Nonrefillable container.** Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS – CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Repeated exposure to etofenprox can cause skin irritation.

HAZARDS TO DOMESTIC ANIMALS - CAUTION: Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age. For external use only. Drooping may be observed for a short period of time immediately following product application. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Cats: In some cases, excessive salivation and ear and paw flicking may occur; however, these effects are temporary and not harmful.

FIRST AID

- | | |
|------------|---|
| If in eyes | <ul style="list-style-type: none">• Call a poison control center or doctor for treatment advice.• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. |
|------------|---|

Have the product container or label with you when calling a poison control center, doctor or veterinarian, or going for treatment. You may also contact 1-800-234-2269 for emergency medical treatment information.

PHYSICAL HAZARDS:

Combustible. Do not use or store near heat or open flame.
