

READ ENTIRE LABEL BEFORE EACH USE.

PRECAUTIONARY STATEMENTS

FIRST AID

IF SWALLOWED: Immediately call a Poison Control Center or doctor. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give ANY liquid to the person. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also call 1-800-345-4735 for emergency medical treatment information.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

Harmful if swallowed, inhaled or absorbed through skin. Do not breathe vapors of spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Wash with soap and warm water after use. Obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and birds. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS:

EXTREMELY FLAMMABLE

Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

EPA Reg. No. 499-404-2382
EPA Est. No. 499-MO-1

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

AVAILABLE THROUGH LICENSED VETERINARIANS ONLY

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool dry place away from heat or open flame and inaccessible to children.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not puncture or incinerate! Empty container by using the product according to the label directions. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partly filled, contact your local waste agency or call 1-800-CLEANUP for disposal instructions.

GENERAL INFORMATION

KNOCKOUT E.S. Area Treatment kills fleas and prevents flea infestation for a full season. Prevents re-infestation for seven months. Adult fleas may be seen in the treated areas when brought in on infested animals or when adults emerge from the pupal cases; however, a population will not develop in the treated area. In transportation equipment, certain plastics may be whitened or dulled. Apply only to carpets and cloth-upholstered areas, or test an inconspicuous area before treating.

Use **KNOCKOUT E.S. Area Treatment** at the rate of 16 oz. for up to 2100 sq. ft. (8 oz. for up to 1050 sq. ft.). Carpeted areas may be vacuumed before treatment and after treatment has dried. Treat infested areas or areas which could be infested; these include rugs, carpets, upholstered furniture, pet beds and pet resting areas. Hold can at arm's length and direct spray toward the area to be treated. Use a sweeping motion to apply product and back away from treated area while holding the can 36 inches away from the surface being treated. Area of 80-100 sq. ft. can be treated in approximately 10 seconds with **KNOCKOUT E.S. Area Treatment**. When treating upholstered furniture, treat under cushions and areas where flea development occurs. Cover aquariums and fish bowls and remove birds from area prior to treating. Treated areas should be vacated during application. **EXCEPT FOR APPLICATOR, DO NOT PERMIT HUMANS OR PETS TO CONTACT TREATED SURFACES UNTIL THE SPRAY HAS DRIED. DO NOT TREAT PETS WITH THIS PRODUCT.**

FOR USE IN AND AROUND: Apartments, automobiles, homes, hospitals, hotels, kennels, motels, offices, schools, supermarkets, transportation equipment (buses, boats, ships, trains, trucks), warehouses, utilities, veterinary clinics and other commercial and industrial buildings.

NOTICE: **KNOCKOUT E.S. Area Treatment** has been tested on several types of carpet, fabric and other household furnishings without adverse effects. In a few instances, waxed surfaces have been whitened or dulled. Holding the can 36 inches away from the target surface normally prevents any whitening from occurring. Because of the wide variety of floor types and finishes, treat a small inconspicuous area before treating the entire area. Avoid contact with antique finishes.
