**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. SHAKE WELL BEFORE USING. Do not allow contact with treated surfaces until spray has dried. When using product, do not allow spray to contact food or water supplies.

**GENERAL CLOTHING INSTRUCTIONS:** This product must not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated. • For protection against ticks (including those that may carry Lyme disease), chiggers and mosquitoes, apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to the skin and utilize the following primary preventive measures. Avoid walking in areas where the pests are found, wear appropriate protective clothing (light-colored, long-sleeved shirt and long pants tucked into socks), inspect body daily for ticks. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers.

**INITIAL TREATMENT INSTRUCTIONS ON NETS, TENTS, SLEEPING BAGS AND BACKPACKS:**

1. Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated (separate outfit, shirt, pants and socks). • 2. Hold container about 6-8 inches from surface of the clothing and spray with a slow, sweeping motion to lightly moisten the entire surface of the fabric. • 3. Continue spraying over entire outfit until a total treatment time of 60 seconds has elapsed and the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, pant cuffs and shirt cuffs. • 4. Turn the clothing over and treat the other side as described in Steps 2 and 3. • 5. Hang the treated clothing and allow to dry for at least two hours (four hours under humid conditions) before wearing. • 6. Three ounces will treat one complete outfit. Do not exceed the total treatment time of 60 seconds has elapsed and the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, pant cuffs and shirt cuffs. • 4. Turn the clothing over and treat the other side as described in Steps 2 and 3. • 5. Hang the treated clothing and allow to dry for at least two hours (four hours under humid conditions) before using. • 6. Three ounces will treat one complete outfit. Do not exceed the

**RE-TREATMENT INSTRUCTIONS:**

For re-treatment, follow instructions for initial treatment.

**STORAGE AND DISPOSAL**

Storage: Store in a cool, dry area, inaccessible to children and away from heat or open flame.

Disposal: Do Not Puncture or Incinerate. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

**PRECAUTIONARY STATEMENTS**

Hazard to Humans and Domestic Animals

**CAUTION:** Causes moderate eye irritation. Harmful if absorbed through the skin. Avoid contact with face, eyes or skin. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

**FIRST AID:** • IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing. • IF ON SKIN: Wash skin immediately with plenty of water for 15-20 minutes. • Call a Poison Control Center or doctor for further treatment advice. Have the product container with you when calling a Poison Control Center or doctor, or going for treatment.

**Physical or Chemical Hazards:** Contents under pressure. Do not use or store near heat or open flame. Exposure to temperatures above 130ºF may cause bursting.

**NOTICE:** To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
