SENTRY  
**CAPGUARD**<sup>®</sup>  
(NITENPYRAM)

**Warnings:**

Keep this and all drugs out of the reach of children.

**Directions:**

A single dose of CAPGUARD<sup>®</sup> Tablets should kill the adult fleas on your pet. If your pet gets re-infested with fleas, you can safely give another dose as often as once per day. Please refer to the package insert for complete information.

**Other Information:**

CAPGUARD<sup>®</sup> is safe for use in dogs, puppies, cats and kittens **2 pounds of body weight or greater and 4 weeks of age and older.** Weigh your pet prior to administration to ensure proper dosage. It is also safe for use in pregnant or breeding dogs and cats.

Begins working within 30 minutes. In studies, CAPGUARD<sup>®</sup> achieved greater than 90% effectiveness against adult fleas on dogs within 4 hours and cats within 6 hours.

CAPGUARD<sup>®</sup> kills adult fleas that cause flea allergy dermatitis (FAD).

If you have questions about flea control or medical problems associated with flea infestations, please consult your veterinarian.
