**FREQUENCY OF APPLICATION**

When used monthly, Hartz® Pet Defender Plus™ for Dogs completely breaks the flea life cycle and controls tick and chewing lice infestations. Research demonstrates that Hartz® Pet Defender Plus™ for Dogs kills adult fleas, flea eggs, and flea larvae for up to six weeks. Hartz® Pet Defender Plus™ for Dogs also prevents development of all flea stages for up to six weeks. Although Hartz® Pet Defender Plus™ for Dogs can control fleas for up to six weeks, if there is a high risk of reinfestation or if the pet has fleas which may cause flea allergy dermatitis, a once monthly application may be needed. Hartz® Pet Defender Plus™ for Dogs kills ticks for at least one month. A once monthly application is recommended where tick control is needed. Hartz® Pet Defender Plus™ for Dogs kills chewing lice for 30 days. Hartz® Pet Defender Plus™ for Dogs remains effective even after bathing, water immersion, or exposure to sunlight. Avoid contact with treated area until dry.

1. Remove one applicator tube from the package and hold in an upright position pointed away from your face.  
2. Twist dispensing tip clockwise about 1/2 turn while pushing down to break the tube's seal. Do not remove the dispensing tip.  
3. Position the dispensing tip on the dog's back between the shoulder blades. Use the dispensing tip of the tube to part the dog's hair so that the product will be applied at skin level. Begin squeezing out the contents of the tube to form a stripe as you move from the shoulder blades along the dog's back to the base of the tail. You may bathe your dog 48 hours after application.  
4. Repeat every month.
